

DSBconnect Digital Banking * Feb. 2024

The main menu of functions in DSBconnect digital banking has changed slightly again, shown below. There is no new functionality, just slight change in order and wording.

VIEW ACCOUNTS: landing page when a login is made, shows all linked accounts. Click each account for transaction history, data exports.

ALL MY MONEY (optional): this only displays if the digital user has clicked to sign up for "All My Money," which allows outside bank accounts and credit cards to "aggregate" in and display, allows for custom categorization, budgeting and more.

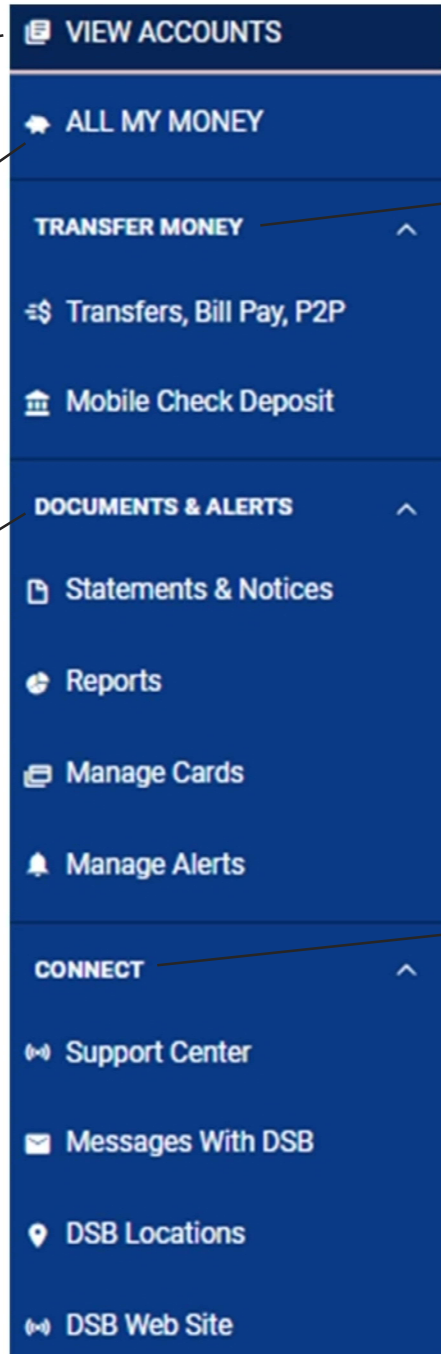

DOCUMENTS & ALERTS: shows these sub-menu's:

Statements & Notices: online account statements and notices can be set up and accessed. Requires digital opt-in on each and every account by account holder.

Reports: users can create their own custom report settings. This is not where online statements are posted.

Manage Cards: certain DSB Visa debit card settings can be managed.

Manage Alerts: email and text alerts for accounts and transactions can be set up and accessed.

TRANSFER MONEY: shows these two sub-menu's:

Transfers, Bill Pay, P2P: internal funds transfers, external ACH funds transfers, iPay Bill Pay, and (if enabled) Person to Person P2P SPIN.

Mobile Check Deposit: checks can be deposited on the mobile app login; history of any mobile check deposit scan be viewed on both app and browser logins.

CONNECT: shows these sub-menu's:

Support Center: users can fill out and submit various forms, disputes, questions to DSB.

Messages: messages that DSB sends to all users periodically.

DSB locations: addresses of DSB locations.

DSB web site: link to www.dsbks.com
